Technical Data Sheet

PRODUCT NAME: EZ KLEEN™ ROOF BRIGHTENER

DESCRIPTION

EZ KLEEN™ ROOF BRIGHTENER is formulated to remove algae, moss and lichens stains from roofs. Restores and maintains curb appeal. Removes stains resulting from asphalt degradation, mineral buildup, mold, algae, moss, and bird or animal excrement. Water based formula is non-acid and does not contain harmful solvents. Formulated with biodegradable surfactants, stabilizers, and contains unique cling agents. Protect and clean your roof with **EZ KLEEN™ ROOF BRIGHTENER**.

APPLICATION

Pre-wet (to protect) vegetation with water hose. Spray on roof and rinse off with low/medium pressure in accordance with ARMA and RCIA approved roof cleaning. Also effective at cleaning gutters and drip. Annual application keeps roof clean and algae free. Can be used by homeowner but recommended use is by proper professional. Note: Always follow all safety requirements for working at height (safety fall arresters, etc) and also all PFD for safe use of this chemical.
